CHICAGO GRAIN
CHICAGO, May 27.—Advices that more corn was being offered by the country than for weeks past did a good deal today to weaken the market. Iowa offerings were said to be especially free. Aggressive support was declining. Opening prices, which ranged from 1/2c decline to a like advance, with July \$1.68 1/2 to \$1.69 and September \$1.56 1/2 to \$1.57 1/2, were followed by a material setback all around.
Oats sagged with corn. After opening 1/2c off to 1/2c up, including July at 91 1/2 to 91 3/4c, the market underwent a general fall.
Provisions reflected the weakness of grain. An uptick in hog values failed to act as an offset.

STATE ENTERS CHURCH FIGHT

Mass. Officer Would Defend Rights of Public in Christian Science Litigation

BOSTON, May 26.—J. Weston Allen, attorney general of Massachusetts, filed in the supreme court today a bill in equity asking that the various parties to the involved Christian Science litigation be temporarily restrained from further prosecuting their suits and ordered to plead to his bill forthwith as defendants.
The attorney general in his bill asserts that the various suits, however decided, will result in only a partial determination of the broad questions in which the public "as indefinite beneficiaries" of trusts created by Mrs. Mary Baker G. Eddy, founder of the Christian Science church is interested. He asked the court to declare the first church to be a public charitable trust.
He also asks it to rule that the governing body of the church consists of the board of directors and that this board is vested with authority to fix the salaries of the trustees of the publishing society, to declare vacancies in the trusteeships for such reasons as it may deem sufficient and to determine what literature shall be published by the trustees "as authoritative for use in the churches and for promoting and extending the religion of Christian Science."

The attorney general further asks that the court declare the treasurer of the first church authorized to hold the net profits of the business of the publishing society subject to the order of the directors.

An order of notice on the bill was made returnable July 1st.

In lieu of the senate appropriation of \$1,000,000 to begin work on the new Pacific coast base in San Francisco bay, the conferees authorized a congressional commission of five senators and five representatives to investigate available sites on San Francisco bay and reports to congress not later than December 31.

ITALY RESENTS CHARGE THAT NEWS 'DOCTORED'

NEW YORK, May 27.—Premier Nitti today, in a dispatch to Italian authorities here says there exists in various European capitals a slanderous plan whereby news without foundation or entirely distorted, is given out for transmission to America for purely speculative purposes.

The Italian headquarters statement answers specifically a despatch from London on May 21 which said that news reports received from the Italian capital were considerably mutilated. This dispatch also said that Italy's political situation was causing anxiety among the entente powers, which was enhanced by the inability to get reliable news as to what was happening in that country.

Italian authorities here called the dispatches to Premier Nitti who, in reply, condemned these London reports as "absolutely false," and a result of a campaign launched to the detriment of Italy.

"In reality," said the premier, "the work of demobilization is progressing regularly and gradually, in full compliance with orders issued by the Italian army and everywhere respected, strikes have practically ceased and internal conditions are normal."
